

# Exercise 2

## Work through the dimensional design process for the Bilka case (Sales process)

### 1. Choose the business process

Ex.: The sales process, the inventory management process, ...

### 2. Declare the grain

What is a fact row exactly, in our case?

As atomic as possible

### 3. Identify the dimensions

The grain itself will often determine a primary or minimal set of dimensions

### 4. Identify the facts

Select facts / metrics

### 5. Draw the star schema

Hand in your answers, and the diagram, in the next step on the learning path.
